

INNOVAC23

EVENT IDEA: There would be many workshops related to new technologies which can be revolutionary for this world. Here in NITT we have talents which can create innovative projects, that should be presented in INNOVAC23. Innovac will be basically a Technical Event which will be further divided into

1. Seminars/conferences: There will be seminars and conferences so we can ask faculties or students of different colleges to gather some valuable information from them.
2. Technical Games: We can create some games through coding. Coding competition and debugging competition will be there as well.
3. Workshops: Technologies which are newly introduced or lot of work is going on around the world, we can conduct a workshop regarding this.
4. Gala Dinner (only for committee): And after all this hustle and hard work there should be some reward which will be served after the event.

VISION:

- The workshop and projects are to be showcased should provide innovative solution.
- New technology and talent must be encouraged.
- Promote parallel computing among people.
- Increase the reach of PCC Club to another level.
- And last but not the least take steps towards development of society.

VENUE: There may occur two scenarios in order to the work efficiently

1. If the crowd is between 500 to 1000 then , it should be better if we choose Burn hall.
2. If the crowd crosses 1000 then, we should choose Golden Jubilee Hall.

BUDGET: There will be requirement of treasurer who going to manage the finances. 1-2 people will be selected for the treasurer. They will go to different places like different companies to collect sponsorship which will be two-third of the entire budget. Rest one-third will be collected from the college. Our focus would be to get the budget as high as possible.

Other resources would be collected from the participants through registration fees of different events like if there is some game or coding competition or debugging round then the money can be collected through fees.

People needed:

There would be five committees for each committee we will require people:-

1. Organising committee:- 2-3 members will be needed for this post and under them we need some juniors who will do needful work assigned by the committee members.

2. Design management committee:- 2 members for this category and under them we need some juniors who will do needful work assigned by the committee members.
3. Finance committee:- 1-2 people will be selected for the treasurer and under them we need some juniors who will do needful work assigned by the committee members.
4. Backdrop committee:- 1 member would be needed for this post .
5. Contributors: Some people would be needed as volunteer who serve the entire day of the event.

PUBLICITY: Different social media platforms we can use. We can stick posters on the walls of canteens, messes, hostels and ongoing events.
